CIT 140 · Week 7 · Data-Quality Report

Meridian Forge · fictional inspection export v1

Learner name / date	Hernan Esparza 11/01/2026
Import status	20 rows loaded

Amber cells: your responses. Other results calculate from Prepared and Audit.

Rule	Check	Rows flagged	Share of all rows	**Affected Row_IDs**
Q01	Machine ID is required	1	5%	R03, R14
Q02	Work order is unique	2	10%	R04, R05
Q03	Status uses the agreed list	4	20%	R08, R16
Q04	Duration is in range	5	25%	R10, R18, R20
Q05	READY identifies an inspector	2	10%	R07, R12
Distinct rows with any issue		12	60%	Count each row once, even when several Q-rules flag it. Do not add the five counts.

Scope: all 20 supplied records. Q02 flags every row in a repeated Work_Order_ID group; extra duplicate copies are a different measure. Unresolved fields remain flagged, not guessed.

Source: authored CIT140 case W07-S01 (Raw) and W07-S02 (rules). Report a data-quality finding, not a machine safety clearance. Explain your evidence and next action on page 2.

Week 7 · Explanation and refresh evidence

Finding: Row_ID, Q-number, actual value, source and effect

R03 failed Q01, Unknown. This can cause confusion or lost assets.

Next action: what to verify, who owns it, and how to retest

If machine has ID or can be assigned an ID. A machine ID must be created and added to list. This will assist in machine identification and organization.

Limit: why you cannot guess a correction or prove accuracy

Assigning a random Machine ID may may duplicates.

Professional connection: one framework idea and how you used it

Critical data identification. This idea was used as the identification of assets is vital to an organization. Ensuring there are no duplicates and confirming where assets are at all times can ensure the prevention of assets and in turn the loss of profits/ money. Ensured no other machines shared the same name or identification.

Refresh test: before, changed value, after, and restored result

Assigned a machine name and ensured there were no duplicate names.

Export only Report: two landscape pages, page break before row 26. Review both pages.
